

PLANNING APPLICATION PROCESS

The following is an outline of timescales involved in obtaining a normal planning permission. While the statutory timescales are provided they can vary from project to project depending on the complexity of the project. The process and timescales for SDZ's, LAP's and Fast Track Residential projects are different to those below.

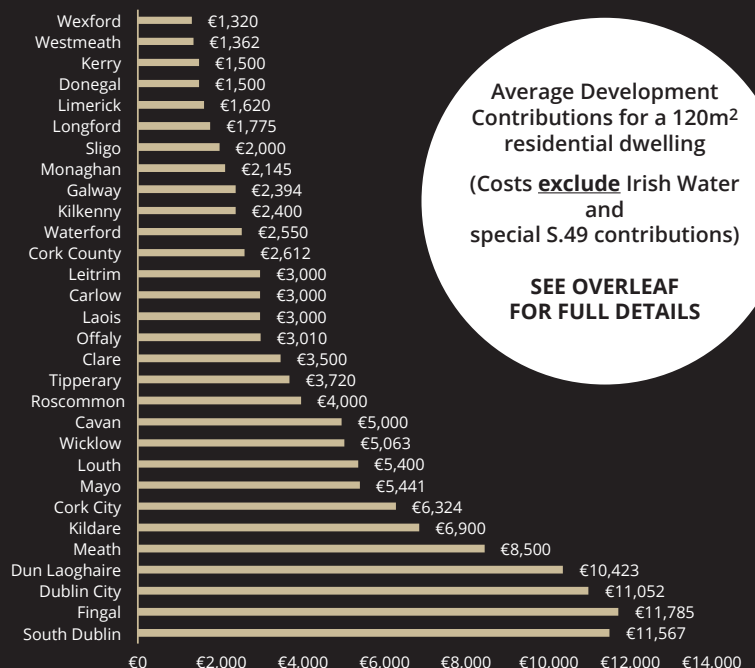

On complex projects there may be more than one request for Further Information. Also, An Bord Pleanála may take longer than 18 weeks. It is not uncommon for large projects to take 9-12 months to achieve planning permission from the date of lodgement.
